

## The Jazzinvaders ft. Dr. Lonnie Smith - "**THAT'S WHAT YOU SAY!**"

**'That's What You Say!'** was definitely one of the most heartfelt sayings when Hammond Legend Dr. Lonnie Smith shared the studio with The Jazzinvaders in the summer of 2012. After meeting and gigging earlier in 2012, Dr Lonnie and The Jazzinvaders decided it would be fun to spend some days in the studio to see what would happen. When the opportunity occurred, new material was written in practically no time at all and after three days of recording there appeared to be a completely spontaneous 4<sup>th</sup> album recorded live in the studio! Finding a suitable title for the upcoming album wasn't that hard. The Doctor appeared to be a great storyteller and this one quote was stuck in our memory: **"That's What You Say!"** needed to be the title of the new album, an album that reflects a fruitful co-operation and lots of respect.

According to the band, the album containing eight brand new tracks and two rearranged standards lead to it's *"most jazzy album so far"*. The grooves by Phil and Ton, the compositions by Van Duikeren, Delfos, Nijs and Busstra combined with lyrics and vocals of Bloemhard and the always impressive and tasty Hammond by Dr. Lonnie, seemed to be the perfect ingredients for this new album.

Just like the band did on their previous albums, they managed to stick to their trademark and typical *'Jazzinvaders Sound'*; *easy accessible jazz combined with nicely flavored and surprising beats!* This unique sound allowed the band to tour all over the world over the past few years playing lots of festivals and clubs in countries like Germany, Spain, Belgium, Switzerland, United Kingdom, Austria and also Japan! The bands releases can be found all over the globe and the media seem to like the band a lot too.

### Dr. Lonnie Smith

Dr. Lonnie Smith has been active as a musician and composer for over more than 50 years. He's thought of being a pioneer when it comes to the legendary Hammond B3 organ. He has recorded over seventy albums to date, many of those for the Blue Note label, and he has worked with all the greats when it comes to Jazz, Blues and R&B. He's responsible for classic tunes like *Think! Move Your Hand, Drives, Live at Club Mozambique, Finger Lickin' Good* and *Alligator Boogaloo*. He has worked and played with many artists in and outside jazz circles including George Benson, Lee Morgan, Dizzy Gillespie, King Curtis, Etta James, Dionne Warwick and Gladys Knight. Without a doubt Dr. Lonnie Smith is (next to James Brown) one of the most sampled artists in Rap, Dance, House and Acid Jazz music.

Working together with the Doctor felt so good the band decided to organize a release tour featuring Doctor Lonnie. In may 2013 this plan will come to fruition as The Jazzinvaders and Dr. Lonnie tour The Netherlands, Germany and Spain. Simultaneously the album will be released in Japan.

On **'That's What You Say!'** The Jazzinvaders will present Jazz in a refreshing way like no one else can; two steps back and three steps forward. By starting with a groove, The Jazzinvaders will initiate a journey taking the listener where probably someone *has* gone before, but no one has returned from like the Jazzinvaders....
